

BREAST CANCER IS THE MOST COMMON CANCER IN WOMEN WORLDWIDE

1 IN 8 WOMEN
IN THE U.S. WILL BE
DIAGNOSED WITH BREAST
CANCER IN HER LIFETIME

EVERY TWO MINUTES
A WOMAN IN THE U.S. IS DIAGNOSED
WITH BREAST CANCER

OVER 40,000
AMERICAN WOMEN DIE FROM
BREAST CANCER EACH YEAR

BUT THERE IS HOPE THANKS TO RESEARCH

THERE ARE MORE THAN
3 MILLION SURVIVORS IN
THE U.S. TODAY

WOMEN WITH EARLY STAGE BREAST CANCER
HAVE A **99% CHANCE**
OF 5-YEAR SURVIVAL

The Breast Cancer Research Foundation (BCRF) is dedicated to ending breast cancer by advancing the world's most promising research. Founded by Evelyn H. Lauder in 1993, BCRF-funded investigators have been involved in every major breakthrough in breast cancer research over the last twenty years.

This year, BCRF is the largest private funder of breast cancer research worldwide, supporting more than 250 scientists worldwide in 14 countries across six continents. By committing 91 cents of every dollar directly to its mission, BCRF is one of the nation's most fiscally responsible nonprofits. It is the only breast cancer organization in the U.S. with an "A+" from CharityWatch and has been awarded Charity Navigator's highest rating of four stars 14 times since 2002.

At BCRF we unite around research—the only way we'll achieve a future beyond breast cancer. But that research relies on all of us: Scientists. Patients. Caregivers. Families. Friends. Communities. **YOU.**

**TOGETHER, WE CAN
BE THE END OF BREAST CANCER.**
